

# GALALITE

## **GALALITE™** **motorised PROJECTION SCREENS**

**FOR SUSPENDING  
FROM CEILING**

**FOR WALL  
MOUNTING**

The ultimate in convenient operation, the use of this screen also reduces wear and tear of screen fabric to a great extent. One can instantly raise or lower the screen at the touch of the switch or the remote-control ensuring controlled and uniform rolling of screen fabric. Operation is virtually smooth and silent thanks to the new 'Motor-in-Roller' design. The screen is easily installed on the wall or hung from the ceiling and is ideal for use in places that are difficult to reach and approach such as in a false ceiling.

**APPLICATIONS:**

- **Lecture/Conference Rooms**
- **Classrooms**
- **Hotels**
- **Hospitals**
- **Business Centres**
- **Film Preview Theatres**
- **Home Theatres etc**

### SPECIFICATIONS

- ▶ Electrically-operated 220v, AC 50 Hz single-phase motor mounted inside roller tube.
- ▶ 3-wire instantly reversible type with brake.
- ▶ Life-time lubrication.
- ▶ Torque-limiter to protect motor from damage if screen is accidentally pulled.
